

VALUE ENGINEERED
HYDRAULIC SOLUTIONS

www.lionhydraulics.com

Lion Hydraulics is guided by strong, clear business principles and practices. Built on over 75 years of engineering, innovation, commitment to quality and outstanding customer service, Lion Hydraulics has emerged as a leading edge supplier and partner in the industry.

Through skilled, intuitive leadership and the uncompromising efforts and ingenuity of its people, Lion Hydraulics has established itself as the manufacturer of choice in the OEM, mobile, agricultural and industrial marketplace.

As a fully integrated manufacturer of hydraulic cylinders and custom castings, Lion Hydraulics has advanced its world class standing with three major global manufacturing facilities and an extensive distribution network, including a new distribution warehouse in Kansas City, MO. Centrally located in North America, Lion Hydraulics has positioned itself to service all the needs of its customers.

A team-oriented association between management and employees is the catalyst for the company's highly successful continuous improvement program. This program is the foundation for Lion Hydraulics' continuous pursuit of excellence to improve all of its products and processes.

Fortified by over 75 years of pride, prominence, power and performance, Lion Hydraulics is a reflection of our commitment to customer satisfaction – the true measure of our success.

Roy Cook
President and C.E.O.

STANDARD CYLINDERS

Since the first Tie Rod cylinder was manufactured in 1955, Lion Hydraulics has expanded to include welded cylinder manufacturing in 1970, and has matured into a global supplier servicing large OEM, distribution, and retail customers. With new Lion and Lynx brand product lines offering the latest in technology and design to choose from, Lion Hydraulics has developed an unmatched breadth of standard cylinder product lines. Today you can find everything from 2500 and 3000 psi tie rod cylinders to heavy duty WR Series welded cylinders designs in multiple configurations of port availability, paint color and pin orientations. With stocking programs in both Kansas City, Missouri and in Winnipeg, Manitoba, odds are we have the cylinder you are looking for on the shelf and ready for your order. To view our product availability and to obtain technical details on our lines please visit our website at www.lionhydraulics.com or www.monarchindustries.com.

CUSTOM CYLINDER DESIGN

Looking for something other than a standard cylinder? Need a solution that requires custom sizes, valve control, cushioning or linear sensing for that tough application? No problem! Lion Hydraulics is ready to provide industry leading design support and custom cylinder designs tailored to your application. With a compliment of professional engineering, technical design staff, and a state of the art design automation suite, Lion Hydraulics is ready to provide you with your design and solid model, all while incorporating the Lion superior quality and performance that the industry has come to expect. Our experienced staff can either develop a new design based on your existing requirements or design new products from the ground up.

QUALITY BUILT IN

Lion Hydraulics is never satisfied with maintaining quality and aligns our practices with lean manufacturing techniques inspired to provide the CONTINUOUS PURSUIT OF EXCELLENCE THROUGH QUALITY AND SERVICE. Lion Hydraulics has accreditation for both the ISO 9001 Quality and ISO 14001 Environmental standards within its operations, engineering, and manufacturing processes. These systems provide the backbone and foundation to Monarch's quality and environmental systems which include, process control plans, FMEA capabilities, regular inspections and process audits, cleanliness testing, and much more.

CUSTOMER SUPPORT

At Lion Hydraulics we understand that you work in a fast paced environment and require information and assistance from your supplier base. With a compliment of dedicated service employees, Lion Hydraulics provides the precise answers and solutions you need with efficiency and precision. Lion Hydraulics is devoted to providing the very best in technical support and trouble shooting, design and development, order and expediting, and quality and product integrity support.
