

## Employment Opportunities WINNIPEG

**Monarch Industries is a leading North American manufacturer and supplier of hydraulic cylinders, utility mixers and custom castings. We offer a competitive compensation & benefits package in a Lean Manufacturing Team Environment.**

### CNC Mechanic / Technician

The successful candidate must possess excellent organization and communication skills along with several years experience in troubleshooting and repairing CNC equipment in a manufacturing environment. Must read and interpret complex mechanical and electrical schematics. Candidates with proficiency in the following will be given preference: knowledge of Okuma machining centers and lathes, PLC applications, HVAC Systems and controls, hydraulic & pneumatic systems, electrical circuits and controls. Journeyman status of equivalent Industrial Mechanic/Industrial Electrician experience is essential.

***Candidates must supply their own basic tools.***

### CNC Operators/ Machinists

The successful candidate will possess the ability to read CNC programs as well as set up and run lathes & drills in a metal working environment. General machine shop experience & blue print reading are required. A recognized CNC Certification is required. The salary range is from \$15.63 to \$22.95.

### Painters

We are seeking experienced motivated painters who have demonstrated leadership capabilities in a team environment. The successful candidates must possess previous painting and preferably lead hand or management experience. Good communication skills and work ethic as well as relevant air-assist electrostatic painting experience required. Ability to read blue prints and bill of materials would be an asset. The salary range is from \$13.35 to \$18.38.

### Labourers / Assemblers

The successful candidate must possess a working knowledge of the English language and a good work ethic. Ability to read blue prints and bills of materials would be an asset. The salary range is from \$12.89 to \$18.38

### Foundry Pattern Maker

The successful candidate must be self-motivated with at least 4 years of relevant pattern making expertise. A pattern making experience and education, an ability to read machined casting drawings, and a knowledge of foundry processes as well as gating and risering are requirements for this position. The salary range for this position is from \$14.72 to \$22.95 (extended for higher skills)

**Candidates will be required to work various shifts.** Please apply in person or in writing with resume stating education, experience & salary expectations to:
