

GYLINDERS

2500 TI Series Hydraulic

Double ported NPT inline for greater flexibility

Zinc plated high tensile steel pins c/w hair pin retainers

Heavy duty piston nut

Piston seal 90 durometer O-ring with back-up washers

Rod seal 90 durometer O-ring with back-up washer

Metal encased nitrile rod wiper

Threaded shaft on 8" stroke ASAE cylinders to accept stroke control

Ductile iron rod clevis with 360° contact area c/w set screw locking device

Ductile iron clevis cap

Ductile iron piston

High tensile steel tie-rods with rolled threads

High tensile steel shaft with hard chrome plating

Heavy wall, skive and burnished steel tubing

Tube seal 90 durometer O-ring with back-up washer

Ductile iron rod cap

2500 psi Continuous Working Pressure
5000 psi Proof Pressure
